CONSUMER AND FOOD ECONOMICS INSTITUTE

NOVEMBER 1979

Food codes are assigned to individual foods or to groups of similar items based on frequency of reportings, comparability in product form and/or nutritional content, or importance as a source of one or more nutrients. In some instances, trade names are used as examples to facilitate selection of appropriate codes. Listings of food brands included under a food code are not necessarily all-inclusive. Mention of a trade name does not constitute an endorsement of the product by USDA to the exclusion of products not mentioned.

INTRODUCTION

The manual lists codes for foods reported in the household food consumption phase of the 1977-78 Nationwide Food Consumption Survey. A description of the food or foods included is provided. For most codes, weights are given for units in which foods will be reported most frequently.

The food quantities and weights or estimated weights reported by the respondent and entered on the schedule are preferable to those in the manual and should be used whenever possible. If the respondent has not reported weights but has given a description of size, brand name, or some unit of measurement, accurate weights might be obtained from local markets in the interviewing area. Only if a weight cannot be obtained, or if a respondent's estimate is obviously unreasonable, should the weights in this manual be assigned.

All weights in the manual are shown in pounds, or decimal parts of a pound, avoirdupois. Bottle or can weights on labels for juices and other liquids are usually given in fluid ounces. Pound avoirdupois weights for common size containers of these foods, as well as weights for one fluid ounce, are given in the manual.

For some foods, such as fresh fruits and vegetables, average weights for "small," "medium" and "large" are shown. If the respondent has given no indication of size, "medium" weights may be used.

Weights are shown for the most common sizes of containers. Other sizes may be available in some areas.

In a few instances, a food may be reported for which there is no applicable food code. Refer a full description of the item to USDA for their consideration. When necessary, a new code and weights will be developed.

CONTENTS

	Page
Table: Conversion of ounces to decimal parts of a pound	3
Baby and junior foods	4
Meat:	
Beef	15
Pork	40
Veal	59
Lamb, mutton, goat	68
Variety meats, game	77
Luncheon meats	91
Meat substitutes, extenders	96
Poultry	100
Fish and shellfish	118
Eggs	166
Milk, cream, ice cream, cheese	168
Vegetables	186
Juices: Vegetable, fruit, ades, and punches	248
Fruit	271
Grain products:	
Breakfast cereals	307
Other cereals	316
Flour other than mixes	324
Prepared mixes	327
Bakery products:	
Bread, rolls	335
Cakes, coffee cakes, pies, breakfast pastries	353
Cookies, crackers, grain-type snacks	380
Sugar, sirup, jelly, jam, candy, puddings, other sweets	404
Table fats, salad and cooking oils, salad dressings	433
Soups, sauces, gravies	442
Mixtures:	
Mixtures mostly egg, fish, poultry, legume	468
Mixtures mostly grain	481
Mixtures mostly meat	493
Mixtures mostly milk, milk products	500
Mixtures mostly vegetable	501
Nuts, peanut butter, condiments:	
Nuts, peanut butter, nut butters and spreads	504
Barbecue sauce, catsup, chili sauce, other sauces	514
Olives, pickles, relishes	517
Leavening agents, seasonings, spices, vinegar	520
Beverages:	
Alcoholic beverages	522
Cocoa, chocolate, baking preparations	524
Coffee	525
Soft drinks	526
Tea	528
List of major food groups and their codes	530

A table for converting ounces (avoirdupois) to decimal parts of a pound follows:

CONVERSION OF OUNCES TO DECIMAL PARTS OF A POUND

Ounces	Fractions of an ounce					
	0	1/4 or	1/3 or	1/2 or	2/3 or	3/4 or
	<u>Lb.</u>	<u>Lb.</u>	<u>Lb.</u>	<u>Lb.</u>	<u>Lb.</u>	<u>Lb.</u>
0	0.000	0.016	0.021	0.031	0.042	0.047
1	.062	.078	.083	.094	.104	.109
2	.125	.141	.146	.156	.167	.172
3	.188	.203	.208	.219	.229	.234
4	.250	.266	.271	.281	.292	.297
5	.312	.328	.333	.344	.354	.359
6	.375	.391	.396	.406	.417	.422
7	.438	.453	.458	.469	.479	.484
8	.500	.516	.521	.531	.542	.547
9	.562	.578	.583	.594	.604	.609
10	.625	.641	.646	.656	.667	.672
11	.688	.703	.708	.719	.729	.734
12	.750	.766	.771	.781	.792	.797
13	.812	.828	.833	.844	.854	.859
14	.875	.891	.896	.906	.917	.922
15	.938	.953	.958	.969	.979	.984

Common household measures added for the convenience of coders are, as follows:

COMMON HOUSEHOLD MEASURES

1 tablespoon = 3 teaspoons	16 ounces = 1 pound
1 cup = 16 tablespoons	1 r tbsp = (rounded) tablespoon =
= 48 teaspoons	2 level tablespoons
= 8 fluid ounces	1 h tbsp = (heaping) tablespoon =
	3 level tablespoons
1 pint = 2 cups (fluid)	
= 16 fluid ounces	
1 quart = 2 pints	
1 gallon = 4 quarts	
1 peck = 8 quarts	
1 bushel = 4 pecks	
= 32 quarts
